

PUTERI AMELIA AZLI

+6285709835136 | puteriazli.it@gmail.com | linkedin.com/in/puteriazli | puteriazli.github.io | Jambi, Indonesia

PROFESSIONAL SUMMARY

Informatics Engineering graduate with experience in Data Science, Artificial Intelligence (AI), and Web Development. Completed more than 28 IT projects, mainly in Data Science and AI, with the best models achieving 99.56% accuracy. Experienced in building real-world projects using Python, Scikit-learn, NumPy, Pandas, TensorFlow, PyTorch, OpenCV, Flask, REST APIs, JavaScript, HTML, CSS, PHP, React, and SQL. Familiar with data pipelines and AI/ML workflow, including data collection, data preprocessing and cleaning, text preprocessing, Exploratory Data Analysis (EDA), feature engineering, model training, evaluation, optimization, and deployment. Willing to work anywhere in Indonesia.

PROFESSIONAL EXPERIENCE

AI Engineer October 2024 – March 2025
Institut Teknologi Padang Padang, West Sumatra

- Designed and developed end-to-end AI digital solutions using computer vision and machine learning, achieving 94% model accuracy.
- Applied data pipelines and AI/ML workflow, including model training, evaluation, optimization using hyperparameter tuning, and benchmark 5 algorithms using 4,100 images, including 100 collected from tomato farms in Jambi Province.
- Developed a full-stack web application and deployed AI models using Flask, REST APIs, HTML, CSS, and JavaScript to improving operational efficiency and reducing manual processes by 97% through digital automation.
- Prepared technical documentation, presented research results to 4 stakeholders, and implemented feedback for continuous improvement.

Data Science Intern and Independent Study February 2024 – July 2024
Bisa AI Academy Remote

- Completed 13 data science projects in data analysis, Artificial Intelligence (AI), machine learning, computer vision, Natural Language Processing (NLP), and Large Language Models (LLMs), achieving the highest model accuracy of 99.56%.
- Prepared end-to-end final project, report, and presentation for a web application using regression machine learning models and geospatial analysis, achieving 19.32% MAPE and 77.14% R².
- Performed data preprocessing, data cleaning, text preprocessing, Exploratory Data Analysis (EDA), data visualization, statistical analysis, time series analysis, and anomaly detection.
- Built dashboards and analyzed business processes using structured and unstructured data to generate business insights and recommendations for data-driven solutions.
- Led a cross-functional team of 6 members to develop a road damage detection web application using computer vision and deep learning with image data from Dinas PUPR Jawa Timur, achieving 83% model accuracy.
- Managed team projects using agile method, presented weekly progress to 40+ participants and stakeholders, and delivered the final project presentation with business impact analysis.

Admin September 2021 – September 2024
WF Digital Agency Remote

- Led the execution of 10+ digital projects by managing client onboarding, scheduling, project monitoring, and reporting.
- Collaborated with teams of 10–100 members to ensure effective communication and coordination.
- Monitored project performance and prepared daily reports using spreadsheets while resolving operational issues to ensure projects were delivered on schedule and met client requirements.

EDUCATION

Bachelor's Degree in Informatics Engineering September 2021 – September 2025
Institut Teknologi Padang Padang, West Sumatra

GPA: 3.57/4.00 (148/144 Credits, Cum Laude)

- Final Project: Tomato Plant Disease Classification Based on Leaf Image using Support Vector Machine (SVM) with full-stack web application.

- Built end-to-end 5 full-stack web application using HTML, CSS, JavaScript, React.js, Tailwind CSS, PHP, CodeInginter 4, Flask, and REST API.
- Relevant Coursework: Probability and Statistics, Data Warehouse, Advanced Database, Decision Support Systems, Artificial Intelligence, Algorithms and Data Structures, Object-Oriented Programming (OOP), System Analysis and Design, Web Programming & Mobile Application Development, Information Systems Management, Business Process Analysis, Digital Transformation, E-Commerce, Geographic Information Systems (GIS), Introduction to Technopreneurship, Computer and Network Security, Server System Administration, Modern Network Architecture, Introduction to IT Forensics, Operating Systems, Computer Architecture, Digital Electronics, Embedded Systems.

SKILLS

Machine Learning & Artificial Intelligence (AI): Computer Vision, Deep Learning, Natural Language Processing (NLP), AI / ML Workflow, Model Training and Evaluation, Model Benchmark, Model Deployment, Hyperparameter Tuning, Metrics Evaluation, Classification, Regression, Forecasting, Segmentation, Image Classification, Image Processing.

Data Analysis & Business: Data Pipeline, Data Preprocessing, Text Preprocessing, Exploratory Data Analysis (EDA), Data Visualization, Data Mining, Time Series Analysis, Statistical Analysis, Dashboard, Data-Driven Solution, Data-Driven Decision Making, Analytics & Reporting, Business Intelligence, Digital Solution, Digital Innovation.

Programming & tools: Python, Scikit-learn, Pandas, NumPy, OpenCV, TensorFlow, PyTorch, Hugging Face, Matplotlib, Plotly, Streamlit, Flask, REST APIs, PHP, SQL, JavaScript, HTML, CSS, React.js, Git & GitHub, Power BI, Looker Studio, Microsoft Office.

Professional Skills: Critical Thinking, Analytical Thinking, Problem Solving, Communication Skills, Teamwork, Cross-functional Collaboration, Project Management, Stakeholder Management, Presentation Skills, Continuous Improvement, Adaptability, Learning Agility, Self-Development, Attention to Detail.

Languages: Indonesian (Native), English (Professional Working Proficiency), Korean (Basic).

ORGANIZATION EXPERIENCE

Secretary Coordinator for Boolean Event	August 2022 – March 2023
Institut Teknologi Padang	Padang, West Sumatra
• Managed the Secretary Division for the Boolean 2022 event with 100 participants. • Coordinated the Secretary Division's tasks, schedules, documentation, and activity records, ensuring division responsibilities were completed on target. • Collaborated with cross-functional teams and presented weekly progress updates to 30+ stakeholders.	

HONORS & ACHIEVEMENTS

Graduated with Honors (Cum Laude) – Institut Teknologi Padang	November 2025
First Author of a SINTA 3-Indexed Journal Publication – JPIT, Politeknik Harapan Bersama	October 2025
Registered Copyright (HKI) Holder for an AI-Based Web Application – DJKI	September 2025
Completed 148 Credits (144 Required for Graduation) – Institut Teknologi Padang	September 2025
Research Team Member in an Institutional Research Grant – Institut Teknologi Padang	October 2024
Lead Speaker at 22 Webinars on Artificial Intelligence and Data Analytics – Bisa AI Academy	June 2024
Capstone Project Team Leader Data Science Program – Bisa AI Academy	March 2024
Certificate of Appreciation for Admin Warung Freelancer – WF Digital Agency	January 2022

CERTIFICATIONS

Belajar Penerapan Data Science dengan Microsoft Fabric – Dicoding Indonesia	January 2026
Belajar Dasar AI – Dicoding Indonesia	December 2025
Kecerdasan Artifisial – Digital Talent Scholarship	September 2025
Excel Mastery for Professionals – Consultee & Company	April 2025
Artificial Intelligence for Business Professional (AIBIZ) – CertNexus	October 2024
Data Science Intern & Study Independent (MSIB) Batch 6 – Kampus Merdeka	July 2024
Data Science for Business Professional (DSBIZ) – CertNexus	July 2024
Kuasai Cara Berbicara Depan Umum dengan Teknik NLP – Skill Academy by Ruangguru	November 2021
Kelas Kilat: Microsoft Excel – YEC Yureka Edukasi Cipta	April 2021
